PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A 65-acre probable military installation is located one kilometer (km) north of Kolomyya (Figure 1). Of the several hard surface roads in and around the installation, one extends east to Kolomyya Airfield which has a concrete runway 6,600 by 250 feet. The installation is also accessible to the Kolomyya-Chernovtsy railroad, which extends generally northwest to southeast.

In the area are four multistory probable barracks, two multistory probable barracks/

administration buildings, a U-shaped multistory administration building, two vehicle/maintenance buildings, four probable storage buildings, and five probable support buildings. A revetted, unidentified area is in the northernmost part of the installation (Figures 2 and 3).

The installation was covered by

missions

No significant changes were observed in the area.

DESCRIPTION OF INSTALLATION

Railroad Service

The installation has direct access to the single track Kolomyya-Chernovtsy railroad approximately one km east of the barracks area.

Road Service

There are several hard surface roads in and around the barracks area. The main Kolomyya-Chernovtsy road is approximately 2 km south of the installation.

Aircraft Landing Strip

The Kolomyya Airfield is 7 km east of the installation.

Administrative and Troop Housing Area

Area D contains four multistory probable barracks and two multistory probable barracks/administration buildings with a troop capacity of approximately 1,300; one U-shaped, multistory probable administration building; two vehicle maintenance buildings, one 270 by 60 feet and one 300 by 50 feet; four probable storage buildings; five probable support buildings; and one revetted, unidentified area in the northern part of the installation.
